

EZ Quickorder

Purpose

Provide a list of previously purchased products to registered users so they can quickly select products to reorder. An absolute must for wholesale customers who tend to order the same things over and over again.

A customer can currently review their old orders and after several clicks, reorder that order again. But it's much more convenient to present the customer with a list of previously ordered products (including options selected) to quickly add them to their cart and/or to go directly to checkout with the last shipping method and payment method already selected.

The screenshot shows the 'Demo Store' interface. At the top, there is a search bar and a cart icon indicating '1 item(s) for \$24.00'. Below the search bar is a navigation menu with categories: Electronics, Sports & Outdoors, Apparel, Music, Movies & TV, Video Games, Office Supplies, and Test product_commissions category. The main heading is 'Quickorder: Previously ordered products'. A note states: 'Note: Grayed items are already in your cart. Add increments only.' There are two buttons: 'ADD TO CART' and 'PROCEED TO CHECKOUT'. Below this is a table of products:

Select	Add Quantity	Product Options	Product	Price
<input type="checkbox"/>	<input type="text" value="0"/>	Color: Black/White/White Size: Small	 100g Pants Code: U001205AF0	Total ordered: 6 \$24.00
<input checked="" type="checkbox"/>	<input type="text" value="1"/>		 Samsung Galaxy Tab™ 8.9 (AT&T) Code: Y0224Y3QQU	Total ordered: 6 \$479.99
<input type="checkbox"/>	<input type="text" value="1"/>	3G Connectivity: No Memory capacity: 16GB	 Apple® - iPad® with Retina® display Wi-Fi - 32GB - White Code: I0241GCXF9	Total ordered: 2 \$499.00
<input type="checkbox"/>	<input type="text" value="1"/>		 Asus USB-N53 Code: W0207T1115R	Total ordered: 2 \$42.00

When a user logs in and they have previously ordered products, a notification is displayed that gives them a link to select from those products. A link is also on the My Account menu for Quickorder.

The screenshot shows a notification banner with a green background and a close button (X). The text in the banner reads: 'Notice To select products from previous orders, [CLICK HERE](#) or select Quickorder from account menu'. Below the banner is a search bar with a magnifying glass icon and a cart icon indicating '1 item(s) for \$24.00'.

Features

- Admin setups allow you to configure/setup the look, feel and behavior of the product list page and the notifications.
 - Default quantity to be in the quantity selector (default is 1)
 - Order to list products in
 - Most recent order first
 - Most recent order last

Installation

Installation is as automatic as possible.

A download link will be enabled following capture of your payment. You will be emailed with the link to download the archive. Upon receipt of your order we may contact you to verify the Domain Name you submitted with the order and to send you the license key. This addon is licensed software. Failure to enter the license key and/or if the key does not match the domain where the addon is being used will cause the addon to be disabled. Please contact us if you encounter any problems if you feel you've entered the license key correctly and the domain name is accurate.

Installation Steps

1. In V4 you can use the '+' icon to download and install the addon directly from your PC.
2. Click the settings icon beside the EZ Quickorder addon and configure the settings you want.
3. Be sure to enter the license key we sent you **exactly**. Then click Save.

This will kick-off the internal installation of the addon (installs language variables, imports vendors, etc.). You should see a green notification message indicating that several language variables were installed successfully. .

The installation is now complete.

Customization

You can modify the css for the product list page by editing the stylesheet located at design/themes/[YOUR THEME]/css/addons/quickorder/styles.css

Contact Us

If you have any difficulty you can contact us via one of the following contact points:
