

# EZ Vendor Minimum Orders Addon

## Overview:

This addon allows vendors in the Cs-cart MVE environment to set a minimum order amount that must be met for a customer to checkout. If a customer attempts to checkout and the sum of the items in the cart do not meet a vendor's minimum order amount, the customer sees a notification about the amount required for each vendor's products that do not meet the minimum.

## Installation:

Installation is easy. Simply click on the '+' icon from the Add-ons/Manage Add-ons page and select the archive you downloaded from the File Download link you received in email.

Note that all language variables begin with 'vendor\_min\_orders\_'
